

Name: Brian Summers

Postcode: 2483

About you: Individual

Name of your business or organisation:

1. What improvements should the NSW Government consider making to the existing Private Native Forestry Codes of Practice?: I recommend that the entire law is rewritten with a greater concern for The Ecology. The Ecological Crisis is the reason to have far greater forest protections than proposed.

Please indicate which code/s you are referring to: Northern NSW Code of Practice, All codes

2. Do you have any suggestions to ensure the Private Native Forestry regulatory settings are efficient, enforceable and effective?: Evidence to date is that current law is not being enforced, ie Limpinwood, northern nsw, I suggest that the laws protecting forrests be enforced, always in favour of the forrest.

3. How can the NSW Government improve the authorisation and approval system for Private Native Forestry?: Stop sub-sourcing departments. The authorisation and approval system for Private Native Forrestry must be the immediate domain of the Dept of Environment as it was.

4. What training and advice services would assist landholders, industry and the community?: Advice and training for all Forrest Workers and Landholders is required regarding The Ecological Crisis, ie the need to not cut down the trees, to change the way we are towards nature, to stop destroying nature, to imediately rescue nature.

5. Do you have any other comments or feedback relevant to Private Native Forestry that you would like to share with us?: Ban all native growth forest cutting.
