Private Native Forestry Review
NSW Government

Dear Private Native Forestry Review

Our PNF approval in Wentworth has been negatively impacted by the closure of the red gum State Forests and consequently closure of Merbein Sawmills, the only sawmill in our area.

A sustainable diversification of our farming operations has been effectively blocked without any fair process or compensation.

The PNF Review should consider the impacts of State Forests and sawmill closures and how PNF holders can be protected from such policies.

Kind regards

Bob Wheeldon
Director
