

# Register for wild dog workshops

Learn practical solutions to deal with wild dog management in a workshop conducted by renowned invasive species specialist, Dr Ben Allen.

## The workshop will include:

- wild dog biology, behaviour and distribution
- wild dog myths, frequently asked questions and popular topics
- principles and concepts of effective wild dog management
- wild dog impacts (economic, environmental and social)
- barriers to effective wild dog management (e.g.. costs, risk to working dogs etc)
- detecting wild dogs, looking for signs of presence and damage
- introduction to new tools (PAPP and canid pest ejectors)
- control tools 101: baiting, trapping, ejectors, fencing
- operational strategies for prevention, eradication and control of wild dogs
- local pest planning.

## Workshop dates:

Anabranh Hall via  
Wentworth, Monday 18 July,  
11am–3pm.

Pooncarie, Community Hall  
Tuesday 19 July,  
10am–2pm.
